

CONVEYORS AND MATERIAL HANDLING EQUIPMENT

- **DESIGNED FOR CORROSIVE ENVIRONMENTS AND WASHDOWN APPLICATIONS**
- **CORROSION-RESISTANT OR ALL STAINLESS STEEL CONSTRUCTION**
- **STANDARD OR CUSTOM DESIGNED SPECIALTY PRODUCTS**

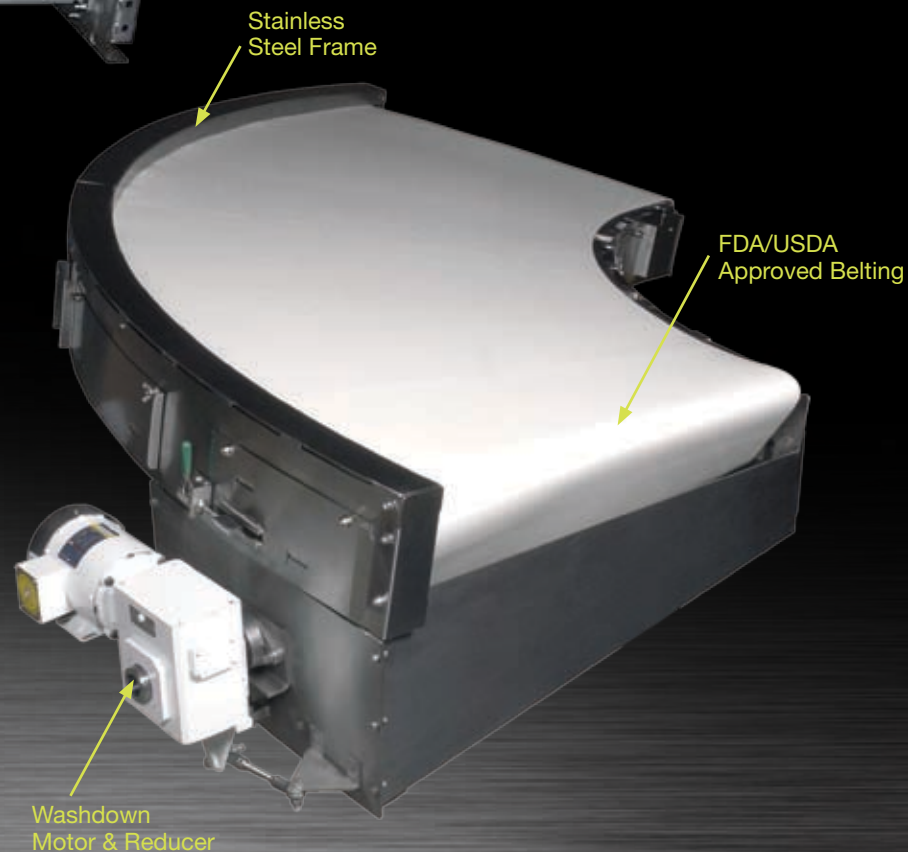

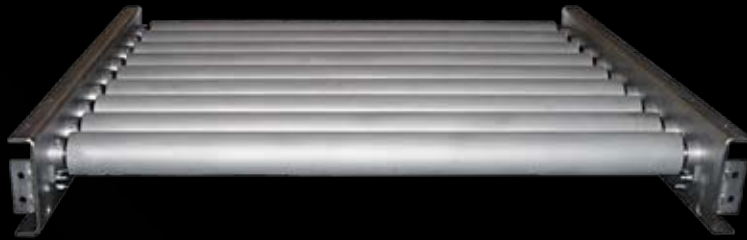

STAINLESS STEEL

PREMIUM (P-CLASS)

Elevation Premium Class stainless steel material handling components are generally used for frequent washdown, high-corrosive, and food processing applications. These washdown rated solutions are typically used when the durability and cleanability of stainless steel is required, and the needs for sanitary designs are not as crucial.

PRODUCT FEATURES MAY INCLUDE

- Standard frame & roller designs
 - Grade 304 or 316 stainless steel materials
 - Mill finish, polished, sand or glass bead blasted
- Washdown rated motors & reducers
- Stainless steel sprockets & fasteners
- Corrosion-resistant chain
- FDA/USDA approved belting
- NEMA-4X enclosures & components

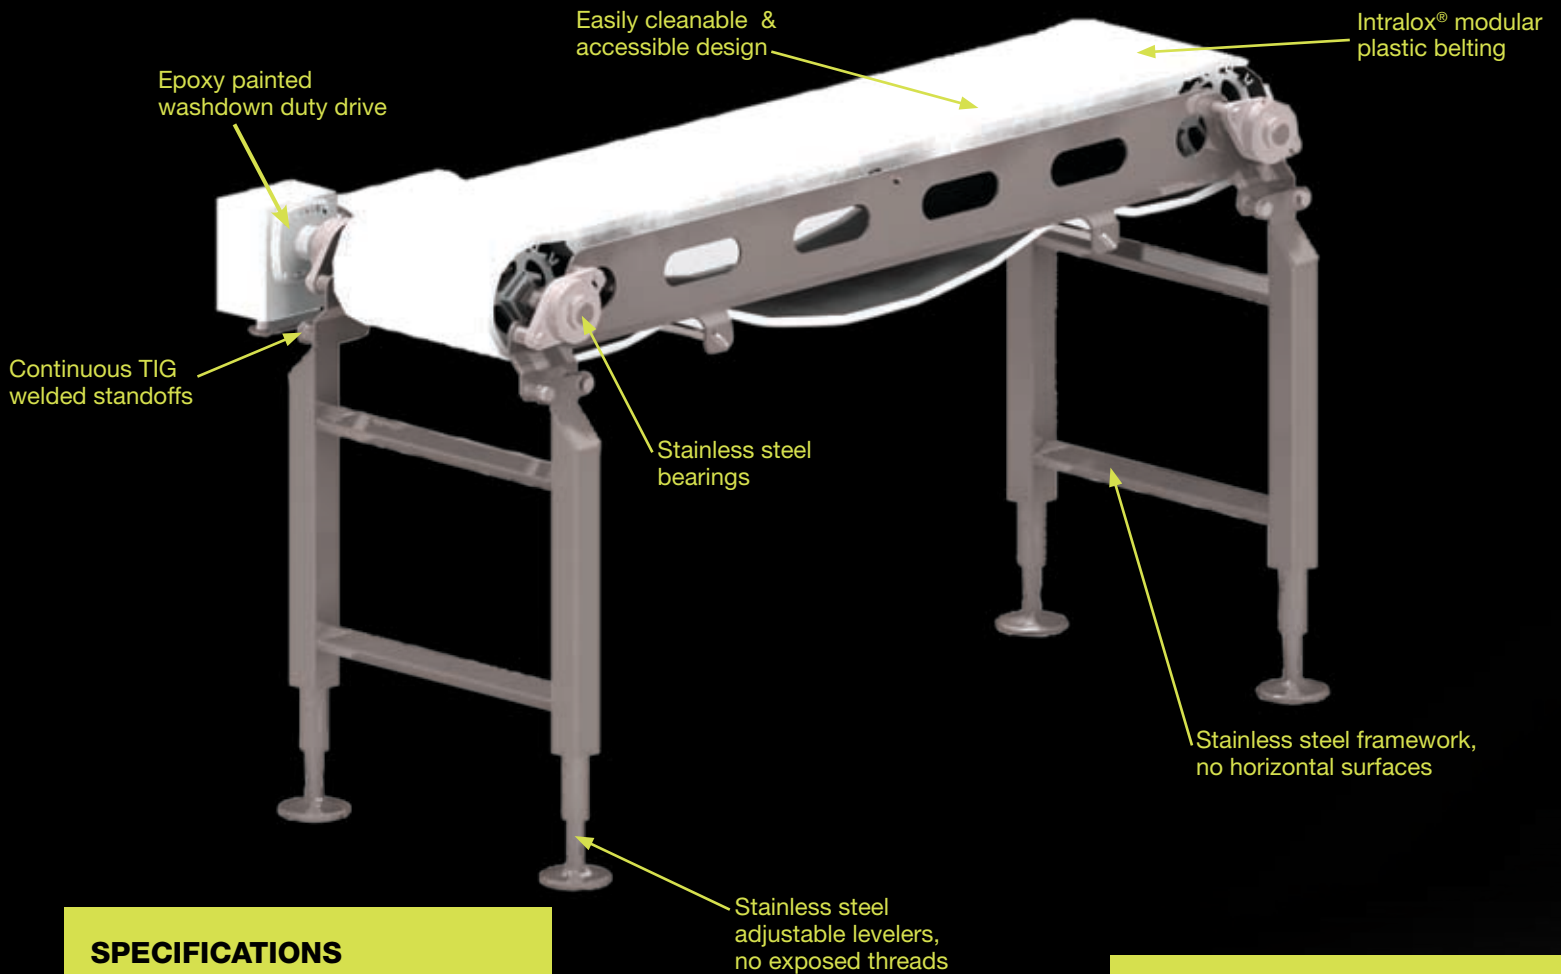

- Supplied to O.E.M.s, distributors and integrators for resale
- Custom labeling available upon request

SANITARY PLASTIC BELT

ULTIMATE (U-CLASS)

The Elevation Ultimate Class sanitary plastic belt conveyor is designed for ultimate cleanability and food safety. Utilizing the latest sanitary design standards of the USDA, the Ultimate Class sanitary conveyor will withstand the harshest of environments while contributing to food safety initiatives through its cleanable design.

SPECIFICATIONS

- Belting – Intralox® modular plastic
- Frame – 10 gauge, formed
- Legs – 11 gauge square tubing with adjustable levelers
- Material – 304 stainless steel, polished finish
- Welds – TIG, continuous
- Design criteria – NSF 14159-3, USDA, AMI
- Drive – Boston, washdown duty
- Bearings – Peer, stainless steel with food grade lubricant
- Carryway – solid UHMW rails, removable
- Returnway – UHMW shoes
- Standoffs used where bolting is required

POPULAR OPTIONS

- Customer preferred motor/reducer brand or type
- Custom frame or leg design modifications
- Belt lifters
- Side guides

STAINLESS STEEL & WASHDOWN DUTY

PRODUCTS AVAILABLE

- Gravity Roller Conveyors
- Plastic Belt Conveyors
- PVC/Fabric Belt Conveyors
- Rollers, Bearings & Wheels
- Wire Mesh Belt Conveyors
- Chain Driven Live Roller Conveyors
- Belt Curve Conveyors
- Chain Transfers
- Chain Conveyors
- Scissor Lifts
- Skatewheel Conveyors
- Ball Transfer Tables
- Accumulation Conveyors
- Turntables

CUSTOM DESIGNED & SPECIALTY PRODUCTS

CHAIN DRIVEN LIVE ROLLER CONVEYOR WITH POP-UP CHAIN TRANSFER

for pallet, bulk bag and drum handling

PNEUMATIC SCISSOR LIFT

for ergonomic stations and conveyor lines

GRAVITY ROLLER CURVE CONVEYOR

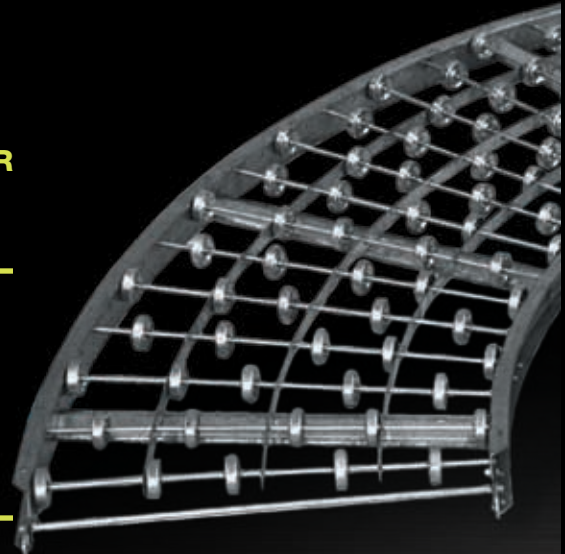

for packaged food and unit handling

POWERED AND GRAVITY ROLLERS

available in sizes from 1" to 8" diameter.

Materials include: stainless steel, aluminum, PVC, galvanized & zinc plated
